

Making Jesus Real

Making Jesus Real aims to bring Jesus into our lives here and now, through the development of personal and life skills. Such skills help us to become switched on to see Jesus in those we come into contact with and within ourselves and to also recognize the God moments that are a part of our lives every day. MJR encourages us to reflect on our day, every day, to recognize where Jesus has been in our day and work to take the next step to become the best people we can be.

Making Jesus Real uses catchy phrases and jingles to get the messages across to children in a fun and meaningful way. The values, attitudes and spirituality Making Jesus Real seeks to encourage, help to reinforce the belief that we are made in the image and likeness of Jesus and as his representatives we mirror the values of Jesus and the actions Jesus modeled when interacting with others.
